

A simple biomedical presentation of the first miracle of Elder Joseph of Vatopaidi (Mount Athos), who smiled 45 minutes after his death.

Part 1. The contemporary situation.

The present contribution describes a miracle that, as far as we know, is almost unheard of in the entire history of Christianity. A dead person (Elder Joseph of Vatopaidi) smiled. Impressive is the fact, that this smile occurred 45 minutes after his death. This is photographically documented. There have been reported a lot of miracles with dead persons (prophets, saints, e.t.c.). But almost never before did occur a miracle like the one that happened on July 1, 2009 in the Holy Great Monastery of Vatopaidi (Mount Athos, Greece)

Since many months, the spiritual family of Elder Joseph (namely the Brotherhood of the Holy Great Monastery of Vatopaidi and especially Abbot Ephraim) suffers a unique, for our days, persecution. The latter consists of all kinds of lies and slander. Every father is sad, when his children are accused. But he is much more sad, when the accusations are faulty. Elder Joseph, being the spiritual father of this family, suffered from this persecution as well. But where sin abounded (in this case the unjust and systematic persecution of the Vatopaidi Brotherhood and of Abbot Ephraim by the pathetic watchdogs of the New World Order), grace did much more abound (in this case the smile from eternity) (Apostle Paul, Letter to Romans, chapter 5, vers 20).
