For parents all over the world a prayer to God for our children and for all the children of the world for their protection and guidance

Ξένες γλώσσες / In English

O God and Father, Creator and Preserver of all creation!

Give to our poor children and to all the children of the world, the grace of Your Holy Spirit, that He may light within them that true fear of God which is the beginning of wisdom, and common sense, the following of which is a source of eternal praise. Bless them with true knowledge of You, keep them from all idolatry and false teaching. Enable them to grow in true saving faith and in all piety, and let those be

with them to the end.

Grant to them a faithful, obedient, humble heart and intellect, that they might grow in years and in grace before God and before men. Plant in their hearts love for Your Divine Word, so that they might be pious during prayers and during divine services, that they might show respect for the servants of Your Word, and be sincere in their actions, modest in body, chaste in morals, honest in word, faithful in action, diligent in studies, happy to complete their tasks, and wise and just toward everyone.
