An admirable letter from our brother Constantinos - Διαβάστε το!

Dear Friends:

Time to celebrate life in the only way that I know.....love one another as life is truly short!!!.....I should know as I am a witness.....I celebrate today 14 years of my date of my accident, where I lay on the operating table for 7 hours, far beyond the 1 hour doctors said that I was not going to live. I survived because all of you prayed for me, I survived because I believed that there is something to live for and to be able to make a difference.

I am blessed to have all of you in my life...Happy Thanksgiving!!!

Enjoy these gifts...THIS IN MY MONTH!!!!
