Theory & Tradition

In English / Christianity / In English

Many of our current cultural fault lines, whether in the Church or in society at large, are best regarded, I believe, as lying between tradition and theory. Put simply, there are those who go along doing the things the way they have always been

done, and those who have a new idea about how things should be done. I understand tradition here as inherited practice, and theory as any abstract body of thought, not based on inherited practice, but Read more:
