## Jonathan Jackson + Enation Tour(Blame-Shifter)

[Ξένες γλώσσες](#) / [In English](#)

**NEW YORK, NY (March 24, 2016)** - Jonathan Jackson + Enation have returned to the studio with Grammy nominated producer **Greg Archilla (Matchbox 20, Collective Soul)** to record ***Blame-shifter***, their new EP they'll self-release on their own label, Hilasterion Records (distributed through Sony RED) on

**May 13, 2016.** Jonathan, on break from filming his hit TV show, recorded **five new songs** for the band's EP plus a cover of **"Unchained Melody" recorded live at The Grand Ole Opry**. The new songs will also be a part of their next full length album which will be announced later this year.

The past two years have been a whirlwind for the band. They partnered with Loud & Proud Records to release ***Radio Cinematic***, which *Billboard Magazine* called "...contemporary, anthemic rock — Jackson proudly wears the influence of U2, Peter Gabriel and Coldplay on his sleeve as influences — is certainly something different..." and *Rolling Stone* said is "Filled with electric guitars, chest-beating vocals and swirling synths..."

For this release, the band decided to be fully independent again so they can be more interactive with their fans. They created a [PledgeMusic pre-order campaign](#) to allow their fans to be a part of the making of *Blame-shifter*. Their fans will be the first to get the new EP as well as have access to exclusive experiences and items, which will only be available until April 5, including a variety of autographed merchandise options, a making of *Blame-shifter* documentary film, VIP meet & greet opportunities and even an executive producer credit on the album among other great selections that are still available.

"We're so excited about our brand new music and the opportunity to hit the road and share it with our fans," says the band. "We made a record that has its roots in the kind of alt rock and live energy we grew up with. Partnering with our fans through Pledgemusic has been invigorating and we can't wait to play the new music on tour this summer!"

Jonathan Jackson is a five-time Daytime EMMY® Award-winning actor for his role in *General Hospital*, and currently stars as "Avery Barkley" in the ABC primetime drama *Nashville*. Jonathan is also known for his roles in film, including *Deep End of the Ocean*, *Tuck Everlasting* and *Insomnia* to name a few. Following Jonathan's solo dates with his TV show, Jonathan Jackson + Enation will take their new songs on the road this spring and summer. ## **Blame-Shifter**

*Jonoman Publishing ASCAP*

*Jonathan Jackson 7/30/15*

I sailed the ocean of my soul  
I studied the waves  
I flew across the great divide  
I swallowed the flame  
I nailed my ego to the wall  
I took the blame  
I'm on a distant shore  
And my humanity is on the line  
I'm falling through the cracks  
And I don't know what's on the other side  
I glimpsed the Great Humility  
He took the blame  
I studied the Saints I read their lives  
They did the same  
The whole is shifting like a drug  
But there's another way  
The first time around we hid  
Because the light was too much to bear  
I've played my part with all  
The pollution that's in the air

**Blame-shifter!**

**No longer!!!!**

To pray for the world is to shed blood

No amount of pain can kill your love

I hate the sins of my enemy

But I am the same

I will condemn myself again

I am to blame
