Between 7 and 9 May 2015, the 1<sup>st</sup> International Conference of Digital Media and Orthodox Pastoral Care (DMOPC15 - Living Water) was organized in Athens by Pemptousia, in collaboration with the Orthodox Internet portals 'Orthodox Christian Network' ([www.myocn.net](http://www.myocn.net), Organ of the Synod of Canonical Bishops of the United States of America) and Bogoslov ([www.bogoslov.ru](http://www.bogoslov.ru), of the Department of Theological Training of the Moscow Patriarchate).

72 speakers from 21 countries and with a variety of specialities and ecclesiastical rank took part in the conference.

The proceedings highlighted the advances, but also the concerns, which have arisen from the use of the Internet. The content of the proceedings is now available to anyone interested, so that all who wish to benefit from it can have immediate access. There are two ways in which the Conference can be watched:

a) By **day**, at <http://www.dmopc15.com/program-2/>
