

## It's become gangrenous (Saint John of Kronstadt)

[Ξένες γλώσσες / In English](#)

The enemy often wounds our soul and scorches us with his wickedness. Unless we

heal that wound straight away with fervent prayer and faith, it'll turn to gangrene in our hearts. God also wounds our heart, though with His love, but this is a sweet wound and welcome. It doesn't burn, but warms and enlivens.
