We're given many chances (Elder Tadej Vitovničk)

[Ξένες γλώσσες](#) / [In English](#)

We're very odd creatures and often wonder about all the mysteries that surround us. We know a few things about the world, but in reality, not very much at all.

We're a mystery even to ourselves. 'Who are we and what are we?' we ask ourselves. The time span of our lives is very short but even in this brief period we're given lots of opportunities to become perfect in good things and to turn to the absolute Good.
