Why are there suicides? (Saint John of Kronstadt)

[Ξένες γλώσσες](#) / [In English](#)

Why do we have all sorts of suicides and murders? Because acting in the heart of the suicide or murderer is the devil, who was the first to commit both deeds. This is

why Christ urges us to have meekness and humility. Then there's no room for the spirits of evil and pride, who desire the death of all people.
