Relief of hemorrhoids symptoms

/ Γενικά Θέματα

The sedentary life, poor nutrition and heredity are the most common causes of hemorrhoids that occurs primarily between the ages of 40-65 years. It is no coincidence that this disease mainly concerns the Western world. The main set of symptoms of aimorroidopatheias is bleeding after emptying, the intense pain and perianal itching which tends to be persistent. A large percentage of population that suffer from aimorroidopatheia choose to deal with their problem when it is at an early stage, using simple medicines. This is because the use of topical ointment is able to resolve the problem of troublesome hemorrhoids, when symptoms are still mild. The moisturizing yarrow, cypress, lavender and mullein extract cream, helps for the treatment of hemorrhoids, as its natural components have been selected to act targeted. For direct result not neglect the frequent use.
