

Our own deformity (Archimandrite Georgios Kapsanis, Abbot of the Holy Monastery of Gregoriou †)

[Ξένες γλώσσες / In English](#)

However well informed you are in terms of human wisdom,

this doesn't cure your deformity.

You have to rediscover the true image of God, Christ, so that assuming the form of Christ, you'll be healed of the deformities of the passions and of sin and thus attain your supreme goal of likeness, of glorification.

» *Blessed Georgios Kapsanis, Hegumen of Gregoriou Monastery*
