

Between Christ and Freud

How many kinds of abstinence are there?

“ For there are eunuchs who were born so from their mother ‘s womb, and there are eunuchs who were made eunuchs by men, and there are eunuchs who made themselves eunuchs because of the kingdom of heavens” (Matthew 19 :13)

This article is a late answer to a very much discussed question a writer – doctor put : How can one live in abstinence without deranging himself, since medicine has proven a long time that the cause of many mental and even organic diseases is most of the time the sexual dissatisfaction ?. The organism needs the sexual activity as much as food or air. Man is part of nature and he submits the laws of nature , that is why bending ? them cannot be without destructive consequences.
