

## The whole truth about Vatopedi

An issue of national importance which has been capturing the attention of the whole country for decades as well as the various Greek ministries and the Greek national security authorities, has become a matter of internal political squabbling, of investigative committees and of unrestrained chit-chat because of 'additional external factors'. The consequences of such furor will possibly be felt by the entire nation for years to come. [read more... \(περισσότερα...\)](#)
