37. The doctor did not believe us

Nea Palatia

In June 1997 I was in a difficult psychological mood, because of a serious family problem. (My wife could not have a child)

We appealed to science and after 18 months of trouble we were told by our doctor that we must proceed with artificial means if we were going to have a child.
Our spiritual father has always been telling us not to lose hope and have our faith in God and our Lady. As a result, I have decided to visit the Holy Mountain.
The monk gave me the blessed ribbon and told me that by praying and by touching the ribbon on my wife's belly while she was asleep, our Lady would help us. (???????????…)
